Analysis of the Financial Position and Operating Results of the Company

Revenue:

For the years 2014 to 2016, the Company had total revenues of THB 9,263.94 million, THB 9,703.57 million, and THB 7,430.04 million, respectively. The Company's main sources of income are derived from its provision of fully-integrated entertainment businesses, comprising the music business, the digital TV business, the radio business, the movie business, the home shopping business, and the satellite TV business. In 2015, the total revenue increased slightly from 2014 at 4.75 percent or THB 439.63 million, primarily attributable to the growth in the music business, particularly digital songs which were able to satisfactorily penetrate the market through social media networks; the growth in the home shopping business according to the targeted plan; and the expansion of the digital TV business. In addition, in 2015, the group had income from the sale of investment in its subsidiaries according to the investment management plan. Notwithstanding the foregoing, in 2015 the investment in ONE ENT was reclassified as investment in a joint venture and financially accounted for by using the equity method. Therefore, the financial data of the digital TV Channel One was not presented in the consolidated financial statements but in the share of profit and loss from investment in joint ventures.

The total revenues in 2016, excluding the gains from the sale of investment and the restructuring in the previous year, decreases from 2015 by 4.09 percent, or THB 372.74 million, as a result of the decline in the advertising industry at the end of 2016.

Cost of Sales and Expenses:

For the years 2014 to 2016, the Company had sales and services costs of THB 6,223.41 million, THB 5,742.91 million, and THB 4,586.31 million, respectively, or representing 70.26 percent, 66.79 percent, and 62.87 percent of the revenue from sales and services and the royalties. In 2015, the cost of sales and services decreased proportionately from that of the previous year. The cost of the Z TV platform decreased. Despite the decrease in the revenue in the music business and the movie business, the costs were better controlled, and the businesses achieved better gross earnings. The digital TV business recorded an increase in transmission service fee (MUX) costs and production costs, while the costs of sale of the home shopping business increased proportionately in response to the increase in income.

In 2016, the sales and services costs continued to decrease in relation to the previous year as a result of the better cost control in the digital TV business, coupled with the driving force of the leaping growth in sales revenue. Similarly, the movie business witnessed an effective cost control and achieved a better gross earnings despite the decrease in revenue. The home shopping business focused on selecting merchandise and adopting effective sales strategies to generate higher profits.

The selling, servicing, and administrative expenses were recorded as THB 3,794.26 million, THB 3,528.05 million, and THB 2,861.58 million respectively and were accountable for 40.95 percent, 36.36 percent, and 38.51 percent of the total revenue for the years 2014 to 2016 respectively. The decrease in 2015 was primarily attributable to the marketing expenses of the music business, the media business, and the satellite TV business. With respect to the home shopping business and the digital TV business, the selling expenses increased proportionately to the increase in revenue. In addition, the total selling, servicing, and administrative expenses in 2016 decreased by 18.89 percent or THB 666.47 million after the Company had successfully restructured the business and adopted effective cost control measures.

Loss:

For the years 2014 to 2016, the Company recorded net losses of THB 2,345.37 million, THB 1,135.23 million, and THB 533.40 million, respectively, as a result of the realized loss of the pay TV business in the first half of 2014 and the decline in the advertising income in the media business coupled with the increase in the operating cost of the digital TV business, e.g., the programme production cost, etc., and the increase in the finance costs. In addition, the net operating results in 2015 was a result of the accounting adjustments in the impairment of investment in the pay TV business of over THB 1,030 million and the adjustment of the digital TV license, in order to reflect the net present value according to the announcement of the Accounting Standards-Setting Board published on 8 February 2016, of THB 92 million. Notwithstanding the foregoing, the net loss in 2015 showed a decrease from the previous year due to more effective cost control and the successful turnaround of the music business, while the digital TV business continued to suffer loss as it was in the early stage of the investment. The net operating loss in 2016 decreased from that of 2015 due to the continuous development and the successful management of the cost of sales and administrative expenses in the music business and other businesses.

Financial Position

Assets:

The total assets were recorded as THB 14,461.34 million, THB 7,589.62 million, and THB 7,248.59 million, as at 31 December from 2014 to 2016, respectively. The current assets were accountable for 36.6 percent, 44.09 percent, and 44.76 percent of the total assets for the years 2014 to 2016, respectively. The Company's current assets are the trade and other receivables from the media business, the radio business, the movie business, and trading. The decrease of the current assets in 2015 was a result of the payments of loans, the disposal of current investment, the payment of the second installment of the digital TV license fee, and decrease of the receivables and inventories, whereas the decrease of the current assets in 2016 was a result of the payments of content and copyright costs, the decrease of receivables, and the payment of the third installment of the digital TV license fee.

The non-current assets were accountable for 63.4 percent, 55.91 percent, and 55.24 percent of the total assets for the years from 2014 to 2016, respectively. The decrease of the assets in 2015 was attributable to the disposal of the current investment in the shares of SE ED, the publishing group, Index Creative, K Arena, for repayment of the short-term loans, and use as the revolving fund, as well as the impairment of investment in CTH and the reclassification of investment in ONE ENT as a joint venture, coupled with the adjustment of the digital TV license to reflect the net present value according to the new accounting standard, whereas the decrease of the non-current assets in 2016 was attributable to the sales of the assets of the discontinued operations. The investment in joint ventures increased in 2015 due to the acquisition of the newly-issued shares in ONE ENT and decreased in 2016 due to the realized loss in the investment of ONE ENT during that year.

Liabilities:

As at 31 December 2014 to 31 December 2016, the Company recorded total liabilities of THB 10,977.03 million, THB 5,555.94 million, and THB 5,780.15 million, respectively. The current

(Translation)

liabilities were accountable for 40.71 percent, 46.20 percent, and 72.30 percent of the total liabilities for the years 2014 to 2016, respectively, while the non-current liabilities were accountable for 59.29 percent, 53.80 percent, and 27.70 percent of the total liabilities for the years 2014 to 2016, respectively. The total liabilities in 2015 decreased by 49.39 percent, or THB 5,421.09 million, due to the repayment of the loans which became due, and, with respect to the digital TV license fee, the reclassification of the investment in ONE ENT as a joint venture. In 2016, the total liabilities increased due to the drawdown of the loan for the payment of the digital TV license fee and for use as the revolving fund. The current liabilities in 2016 increased because certain financial ratios of the digital TV operation did not conform to the terms of the bank. Therefore, as at 31 December 2016, the loan was reclassified as the current portion of long term debts for the period from the end of the period to the waiver from the bank in accordance with the generally-accepted accounting standards. On 24 February 2017, the bank issued a waiver letter on the financial ratios for the two digital TV channels and the current portion of long-term debt was reclassified as long-term debt.

Shareholders' Equity:

From 31 December 2014 to 31 December 2016, the Company had shareholders' equity of THB 3,484.31 million, THB 2,033.68 million, and THB 1,468.44 million, respectively. In 2015, the shareholders' equity decreased from that of the preceding year by 41.63 percent, or THB 1,450.63 million, as a result of the operating loss during the year. The shareholders' equity as at 31 December 2016 decreased from the end of 2015 by 27.79 percent, or THB 565.23 million, as a result of the increase in the accumulated loss from the operating loss. In 2016, the Company was able to maintain an interest-bearing debt to equity ratio as required in the loan agreements.

Liquidity:

In 2014 and 2016 the Company had net cash flow used in operating activities of THB 2,120.93 million and THB 402 million, respectively. In 2015, the Company had a net cash flow from operating activities of THB 371.15 million. In 2014 and 2016 the Company had a net cash flow used in investing activities of THB 677.88 million and THB 563.17 million, respectively. This was primarily attributable to the purchase of equipment and increase of current investment, as well as payment of the digital TV license fee. In 2015, the Company had net cash flow from investing activities of THB 797.51 million, primarily attributable to the cash received from the sale of investments in subsidiaries and joint ventures as a result of the reclassification of the investment in ONE ENT from a subsidiary to a joint venture. In 2014, the Company had net cash flow from financing activities of THB 2,130.32 million as a result of the cash received from a capital increase. In 2016, the Company had net cash flow from financing activities of THB 775.02 million as a result of the additional drawdown of the loan.
