As a result, from the expansion of movie theaters in other provinces making movies readily accessible to Thai audiences. Furthermore, with the emergence of many video streaming platforms, there are additional ways to reach movie viewers in Thailand and overseas. In 2019, industry trends anticipate growth in advertisement spending in theaters following more branches opening, especially in the provincial market. New film line-ups from leading operators will drive the Thai film market to expand further, with a positive viewpoint from the operator with respect to production and presentation in Thailand and overseas markets. Several internal and external factors contribute to the success of Thai movies, including:

- Stories and scripts must be fresh and remarkable. Thorough research is needed to produce each story. The screenwriter must use effective writing skills and possess knowledge of movie language as well as conversational language so that the message is conveyed to the target audience in a relatable way.
- Branding: Film producers and studios must ensure moviegoers of the quality in all the movies they produce and that their films always receive grand receptions and are successful.
- Analyses are needed to truly understand target customers, determine the movie genre, and prepare proper scripts, actors and actresses, as well as the right public relations plans. These will help meet the demands of target customers.

#### Industry Outlook

The satellite TV platform remains the television medium that has the highest number of viewers in the country coupled with the NBTC’s must-carry regulations imposed on digital TV, companies and media agencies, which continue to use satellite TV platform as a medium to reach their target market more effectively. However, the satellite TV industry has slowed down since 2019 due to technological advancements in communications. Media consumption behavior has also shifted from traditional media to digital and online media, which results in more intense competition. While the economic recession and advertising spending has slowed, the operating results for the satellite TV business continues to decline. Especially in the past year, business operators have adapted and expanded to online channels as well as cooperating with strategic partners to sell content on other platforms. The direction is likely to remain stable. For the Group, the satellite television business has an essential role in supporting the public relations of the Group such as the music business, offering greater exposure across the country.

The overall perspective of Digital TV remains unchanged, with advertising spending being allocated to digital TV media as it remains a strong medium penetrating into Thai households nationwide. In 2019, the Office of The National Broadcasting and Telecommunications Commission (NBTC) issued measures to assist digital TV operators by opening the opportunity for digital TV channels to return their licenses.

Thus, decreasing the number of digital TV operators to just 15 channels from the original 22 channels. Moreover, in 2020, it is expected that the total value of the advertising market will not change much. Due to economic conditions, business entrepreneurs may not be confident and might delay advertising spending budgets.

The Company has set the following strategic plan to create distinctive characteristics and promote digital TV channels to make them more widely known:

- Focus on content that is outstanding, interesting and has variety since viewers select a program based on content. Interesting programming will create an impression on viewers and make them remember the channel. The Company will produce and develop high-quality content in the form of drama, news, variety, and game shows that offer a new choice for the audience.
- Create broader audience awareness of digital TV under GMM 25 and One 31 Channel. The Company is planning a promotion through a variety of channels such as large advertising boards, online media, printed media and promotional activities at various locations and competitions, as well as running a campaign and participating in cross-marketing activities with partners to expand the digital TV audience base by engaging partnership clientele.

The Company intends to establish both digital TV channels as leaders in the Thai digital TV industry to be strong and have high quality.

The Board of Directors has placed high importance on risk management processes at both corporate and operational levels in line with the risk management policy and framework formulated by the Group to mitigate risks to be at an acceptable level, suitable to the environment of each business unit's nature of working or activities. The management and staff at all levels are encouraged to take part in the processes and risk management systems are put in place across the organization and instilled as part of the Group's culture, while the Risk Management and Internal Control Department is assigned to develop risk management systems in accordance with international practices and integrate risk management practices at each level with all related departments under the supervision of the Risk Management Committee. Besides, the Group's management has well implemented the risk management practices, including risk management follow-up and reporting to the Board of Directors on a regular basis.

In 2019, the Group has improved strategies in various areas on a continued basis, aiming to manage risks that may arise in both new and core businesses of the Group, such as preparation on production technologies and capital funds, improvement of organizational structures and work processes, and human resources development at high and middle levels in support of the Group's business management team in response to rapid business growth.

### Corporate Risk

#### 1. Risk from Piracy

Piracy is one factor that uniformly affects music and movie business worldwide. Every year, the Group has to contend with adaptation and duplication of their music, which are then sold cheaply in large quantities. New forms of piracy have emerged with the latest technological developments, such as using the Group's products for commercial purposes on the internet. Consequently, the Group loses substantial valuable business opportunities every year.

Nonetheless, the government has issued various measures in a serious attempt to improve the protection and reduction of piracy. The latest measures are comprehensive, ranging from controlling the process of importing machines that can be used to produce pirated products, to controlling production and distribution processes. Penalties and fines have been increased against violators. Rewards are handed to police or to people who offer leads to the production, storage and retail sites of pirated goods. In addition, both government and concerning private sectors which include the producers, copyright owners as well as the artists themselves have pushed, promoted and enticed the consumers into purchasing the copyrighted while avoiding pirated products.

Moreover, to promote the legal purchase of goods, the Group has continuously developed goods and services as well as new digital service platforms to keep pace with consumers' ever-changing behavior and convenience as well as technological developments while also supplementing the Group's revenue. These digital services include categories of download services, such as ringtones, ring-back tones, full songs and full MVs, in both a la carte and subscription services, through channel application 123GMM on both iOS and Android, website [www.gmmember.com](http://www.gmmember.com) and the iTunes Store. Moreover, we include services for listening to music on the internet without the need for downloading (Music Streaming). Customers can listen to hot music tracks from around the world. We also expand the method for reaching the Group's content via GMM Grammy Official Account on YouTube as well as other web-based and mobile applications. In addition, the Company has developed digital content and partnered with digital platforms to create various types of content such as Music stickers with LINE and Artist Content with Line TV. Artist content lets fans feel closer to their favorite artists and creates loyalty, which encourages them to buy copyrighted products. By keeping pace with technology and changes in consumer behavior, the Company builds customer engagement and generates more revenue.

## 2. Risk from Competition in Digital TV Business

Transforming into digital TV is a significant step where people have more option in selecting information they want to see (Fragmentation of Viewing). Such change causes high competition in advertisement rate and broadcast programs. Existing plus new players in the market generates fluctuation in advertisement rate (per minute), especially newly broadcast programs which have not been rated. Therefore, income derived from TV programs are depended on ratings of each program where most of the advertisement agencies and products or service providers would hold their decision to see the supplement factors such as government regulations, ratings standards or general image of each channel. Nonetheless, the transition from analog to digital television has been delayed due to many factors. For instance, an intermittent in expansion of digital television network (MUX-Multiplexer) and digital television subsidy coupons distribution scheme by NBTC causes availability to access to digital content in many areas.

The Company, as a professional operator with experience and expertise in production of television program, still commit to bring to our audience the appropriate and useful television programs. We have created and developed the content of drama, series, news, variety show, game show to constantly present to audiences through two digital TV channels namely ONE HD (31) and GMM25 (25). The Company is capable of producing a variety of contents therefore both digital TV channels are distinct and able to meet the needs of audiences. In order to expand the target audience and to compete in the domestic market and towards the ASEAN community, we have added online channel which enables audience to reach the content through computer or even smart-phones or tablets so as to lead the two digital TV channels to achieve leadership of digital television industry.

The Company has actively acquired strategic alliances to jointly invest in digital TV channels to both strengthen the business and enhance competitiveness in the digital TV industry through continuous development of content and programming that meets target audiences preferences, which boosts popularity and channel ratings. Moreover, the Company has partnered with Netflix, an on-demand VDO streaming platform with viewers all around the World. More Thai TV series and movies have been featured on Netflix, which generate more revenue for the Company.

## 3. Risk of Business Interruptions due to Force Majeure

The Group has envisioned the importance of business operations continuity, without interruptions, especially for major business processes of the Group in case of force majeure such as natural disasters, man-made hazards, technological hazards or computer virus attacks, protests, disturbances, enactment of new legislation, etc.

The Company has therefore arranged the Disaster Recovery Site and conducted an annual rehearsal on the restoration of information so as to reassure that staffers, systems and work places are ready to manage any emergencies and return to normal operations quickly in case of any crisis. This helps to absorb impacts and mitigate any damage that may occur from Force Majeure or any disaster that may hamper business operations. Moreover, the Company also arranged the incident management plan to handle emergency cases which might occur that interrupt the broadcasting operation of both digital TV channels. The plan is reviewed annually.

## 4. Risk from Retarded Internal Process Adjustment to the Rapid Business Expansion

At present, fast-changing technology and changes in consumers' behavior may affect the business operations of the Company, including the creative structure of products and services to meet customers' needs as well as communication with them. That is why the Company continuously conducts research to keep up with changing technology and changes in consumer behavior to effectively meet customers' needs, including forming partnerships with digital platforms.

The rapid changes in technology and consumer behavior may also affect the internal process adjustment of each business group in various ways, including the Group's organization structure, policy, etc. Consequently, these factors may create risks from retarded internal process adjustment to rapid business expansion.

In order to sustain business growth, however, such risk has always been efficiently managed by revising the organizational structure and adjusting key processes in order to effectively implement all centralized policies together with developing a standardized performance evaluation across all units in the Group. As well as keeping pace with technology and changes in consumer behavior, developing products and services that best serve customers has also been effective.

## 5. Risk from Relying on Individual Talent

The Group's business is mainly based on people. The business has been grown by staff with experiences and distinctive talent especially for the music business, radio business, television business. All staff, regardless of whether they are the artist or all the different supporting teams, are recognized as valuable members having high impact on the Group's operations. Hence, whenever they move to a different corporate affiliate or other companies, this means a valuable loss which requires the Group to spend additional time developing new artists or supporting teams to replace them.

However, the Group has continually managed the risk by focusing on rapport between the Group and its staff, emphasizing on promoting, among the staff, the understanding of the underlying business. In addition, it is the Group's policy that deserving talents, whether artists or supporting staff, are given the opportunity to participate in the management process and/or become business partners. As a part of the Group's strategic human resource plan, there exists a protocol outlining career paths for key management figures, top management executives and equally important, plan for recruiting and promoting talents. Furthermore, the Group has developed the standardized performance evaluation together with placing great importance on revising compensation package and benefits for staff to be competitive compared to the other companies in the same industry.

Mr. Paiboon Damrongchaitham  
Chairman

Ms. Boosaba Daorueng  
Group Chief Executive Officer

**Opinion**

I have audited the accompanying consolidated financial statements of GMM Grammy Public Company Limited and its subsidiaries (the Group), which comprise the consolidated statement of financial position as at 31 December 2019, and the related consolidated statements of income, comprehensive income, changes in shareholders' equity and cash flows for the year then ended, and notes to the consolidated financial statements, including a summary of significant accounting policies, and have also audited the separate financial statements of GMM Grammy Public Company Limited (the Company) for the same period.

In my opinion, the financial statements referred to above present fairly, in all material respects, the financial position of GMM Grammy Public Company Limited and its subsidiaries, and of GMM Grammy Public Company Limited as at 31 December 2019, and their financial performance and cash flows for the year then ended in accordance with Thai Financial Reporting Standards.

**Basis for Opinion**

I conducted my audit in accordance with Thai Standards on Auditing. My responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of my report. I am independent of the Group in accordance with the Code of Ethics for Professional Accountants as issued by the Federation of Accounting Professions as relevant to my audit of the financial statements, and I have fulfilled my other ethical responsibilities in accordance with the Code. I believe that the audit evidence I have obtained is sufficient and appropriate to provide a basis for my opinion.

**Key Audit Matters**

Key audit matters are those matters that, in my professional judgement, were of most significance in my audit of the financial statements of the current period. These matters were addressed in the context of my audit of the financial statements as a whole, and in forming my opinion thereon, and I do not provide a separate opinion on these matters.

I have fulfilled the responsibilities described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of my report, including in relation to these matters. Accordingly, my audit included the performance of procedures designed to respond to my assessment of the risks of material misstatement of the financial statements. The results of my audit procedures, including the procedures performed to address the matters below, provide the basis for my audit opinion on the accompanying financial statements as a whole.

Key audit matters and how audit procedures respond to each matter are described below.

### ***Impairment of investments***

As discussed in Note 12 - 15 to the financial statements, the Company has investments in subsidiaries, joint ventures, associates and other long-term investments at cost totaling Baht 9,176 million and has impairment losses on investments in subsidiaries, associates and other long-term investments totaling Baht 5,998 million. In determining the impairment loss, management had to exercise judgement with respect to its projections of future operating performance, plans for each investee, and determination of an appropriate discount rate and key assumptions. There is thus a risk with respect to the amount of impairment loss recorded on investments.

I assessed the management's identification of cash generating units and selection of a financial model, by gaining an understanding of management's decision-making process and evaluating whether the decisions were consistent with its financial history and industry trends. In addition, I gained an understanding of and assessed the following:

- The assumptions applied in preparing plans and cash flow projections for each company, based on the understanding I gained of the process by which the figures were arrived at, comparison of the assumptions with external and internal sources of information and comparison of past cash flow projections with actual operating results in order to assess the exercise of management judgement in estimating cash flow projections, and comparison of the long-term growth rate of each company with economic and industry forecasts.
- The discount rate, based on comparison of the average cost of capital and other data with those used by comparable organisations.
- The assumptions and approaches used by the management in calculating the fair value of investments.

I considered the scope and probability of potential changes in the key assumptions (both individually and collectively as a group) and in particular the growth rates applied in preparing the cash flow projections, by comparing them to economic and industry forecasts. In addition, I reviewed the disclosure of information with respect to impairment of investments.

### ***Revenue recognition***

The Group's revenue is significant to the financial statements and directly affects its operating results, to which users of financial statements pay attention. The Group has numerous types of revenue and it is derived through various channels, under agreements with a large number of customers that contain a variety of conditions, pertaining to matters such as sales promotions and discounts. In addition, changes in consumer behavior and industry trends have directly affected the competitive environment in media and entertainment industry. There are therefore risks with respect to the amount and timing of revenue recognition.

I have examined the revenue recognition of the Group by

- Assessing and testing the Group's IT system and its internal controls with respect to the revenue cycle by making enquiry of responsible executives, gaining an understanding of the controls and selecting representative samples to test the operation of the designed controls.
- Applying a sampling method to select sales and service agreements to assess whether revenue recognition was consistent with the conditions of the relevant agreement, and whether it was in compliance with the Group's policy.
- On a sampling basis, examining supporting documents for sales and service transactions occurring during the year and near the end of the accounting period, and with special consideration given to expanding the scope of the examination supporting documentation for transactions occurring near the end of the accounting period.
- Reviewing credit notes that the Group issued after the period-end, with special consideration given to expanding the scope of sampling of documentation.
- Performing analytical procedures on disaggregated data to detect possible irregularities in sales transactions throughout the period, particularly for accounting entries made through journal vouchers.

## **Other Information**

Management is responsible for the other information. The other information comprise the information included in annual report of the Group, but does not include the financial statements and my auditor's report thereon.

My opinion on the financial statements does not cover the other information and I do not express any form of assurance conclusion thereon.

In connection with my audit of the financial statements, my responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or my knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work I have performed, I conclude that there is a material misstatement of this other information, I am required to report that fact. I have nothing to report in this regard.

## **Responsibilities of Management and Those Charged with Governance for the Financial Statements**

Management is responsible for the preparation and fair presentation of the financial statements in accordance with Thai Financial Reporting Standards, and for such internal control as management determines is necessary to enable the preparation of the financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Group's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Group or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Group's financial reporting process.

## **Auditor's Responsibilities for the Audit of the Financial Statements**

My objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes my opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with Thai Standards on Auditing will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with Thai Standards on Auditing, I exercise professional judgement and maintain professional skepticism throughout the audit. I also:

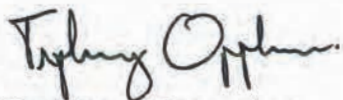

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for my opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern. If I conclude that a material uncertainty exists, I am required to draw attention in my auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify my opinion. My conclusions are based on the audit evidence obtained up to the date of my auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the consolidated financial statements. I am responsible for the direction, supervision and performance of the group audit. I remain solely responsible for my audit opinion.

I communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that I identify during my audit.

I also provide those charged with governance with a statement that I have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on my independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, I determine those matters that were of most significance in the audit of the financial statements of the current period and are therefore the key audit matters. I describe these matters in my auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, I determine that a matter should not be communicated in my report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

I am responsible for the audit resulting in this independent auditor's report.

### 3. New financial reporting standards

#### (a) Financial reporting standards that became effective in the current year

During the year, the Group has adopted the revised (revised 2018) and new financial reporting standards and interpretations which are effective for fiscal years beginning on or after 1 January 2019. These financial reporting standards were aimed at alignment with the corresponding International Financial Reporting Standards with most of the changes directed towards clarifying accounting treatment and providing accounting guidance for users of the standards. The adoption of these financial reporting standards does not have any significant impact on the Company's and its subsidiaries' financial statements. However, the new standard involves changes to key principles, which are summarised below:

#### **TFRS 15 Revenue from Contracts with Customers**

TFRS 15 supersedes the following accounting standards together with related interpretations.

TAS 11 (revised 2017)	Construction Contracts
TAS 18 (revised 2017)	Revenue
TSIC 31 (revised 2017)	Revenue - Barter Transactions Involving Advertising Services
TFRIC 13 (revised 2017)	Customer Loyalty Programmes
TFRIC 15 (revised 2017)	Agreements for the Construction of Real Estate
TFRIC 18 (revised 2017)	Transfers of Assets from Customers

Entities are to apply this standard to all contracts with customers unless those contracts fall within the scope of other standards. The standard establishes a five-step model to account for revenue arising from contracts with customers, with revenue being recognised at an amount that reflects the consideration to which an entity expects to be entitled in exchange for transferring goods or services to a customer. The standard requires entities to exercise judgement, taking into consideration all of the relevant facts and circumstances when applying each step of the model.

This standard does not have any significant impact on the Group's financial statements.

**(b) Financial reporting standards that will become effective for fiscal years beginning on or after 1 January 2020**

The Federation of Accounting Professions issued a number of new and revised financial reporting standards and interpretations, which are effective for fiscal years beginning on or after 1 January 2020. These financial reporting standards were aimed at alignment with the corresponding International Financial Reporting Standards with most of the changes directed towards clarifying accounting treatment and providing accounting guidance for users of the standards except the following new standards which involve changes to key principles, which are summarised below.

**Financial reporting standards related to financial instruments**

A set of TFRSs related to financial instruments consists of five accounting standards and interpretations, as follows:

Financial reporting standards:

TFRS 7	Financial Instruments: Disclosures
TFRS 9	Financial Instruments

Accounting standard:

TAS 32	Financial Instruments: Presentation
--------	-------------------------------------

Financial Reporting Standard Interpretations:

TFRIC 16	Hedges of a Net Investment in a Foreign Operation
TFRIC 19	Extinguishing Financial Liabilities with Equity Instruments

These TFRSs related to financial instruments make stipulations relating to the classification of financial instruments and their measurement at fair value or amortised cost (taking into account the type of instrument, the characteristics of the contractual cash flows and the Company's business model), calculation of impairment using the expected credit loss method, and hedge accounting. These include stipulations regarding the presentation and disclosure of financial instruments. When the TFRSs related to financial instruments are effective, some accounting standards, interpretations and guidance which are currently effective will be cancelled.

The management of the Group believes that adoption of these standards will not have any significant impact on the financial statements.

## **TFRS 16 Leases**

TFRS 16 supersedes TAS 17 Leases together with related Interpretations. The standard sets out the principles for the recognition, measurement, presentation and disclosure of leases, and requires a lessee to recognise assets and liabilities for all leases with a term of more than 12 months, unless the underlying asset is low value.

Accounting by lessors under TFRS 16 is substantially unchanged from TAS 17. Lessors will continue to classify leases as either operating or finance leases using similar principles to those used under TAS 17.

The Group plans to adopt TFRS 16 using the modified retrospective method of adoption of which the cumulative effect is recognised as an adjustment to the retained earnings as at 1 January 2020, and the comparative information was not restated.

The management of the Group expects the effect of the adoption of this accounting standard to the statement of financial position as at 1 January 2020 to be to increase the Group's assets by approximately Baht 731 million (the Company only: approximately Baht 372 million) and the Group's liabilities by approximately Baht 731 million (the Company only: approximately Baht 372 million).

## **4. Significant accounting policies**

- c) Investments in debt securities, both due within one year and expected to be held to maturity, are recorded at amortised cost. The premium/discount on debt securities is amortised/accreted by the effective rate method with the amortised/accreted amount presented as an adjustment to the interest income.
- d) Investments in non-marketable equity securities, which the Group classifies as other investments, are stated at cost net of allowance for impairment losses (if any).
- e) Investments in joint ventures and associates are accounted for in the consolidated financial statements using the equity method.
- f) Investments in subsidiaries, joint ventures and associates are accounted for in the separate financial statements using the cost method, net of allowance for impairment losses (if any).

The fair value of marketable securities is based on the latest bid price of the last working day of the year. The fair value of debt instruments is determined based on yield rates quoted by the Thai Bond Market Association. The fair value of unit trusts is determined from their net asset value.

The weighted average method is used for computation of the cost of investments.

In the event the Group reclassifies investments from one type to another, such investments will be readjusted to their fair value as at the reclassification date. The difference between the carrying amount of the investments and the fair value on the date of reclassification are recorded in the income statement or recorded as other components of shareholders' equity, depending on the type of investment that is reclassified.

On disposal of an investment, the difference between net disposal proceeds and the carrying amount of the investment is recognised in the income statement.

#### **4.6 Leasehold improvement and equipment / Depreciation**

Leasehold improvement and equipment are stated at cost less accumulated depreciation and allowance for loss on impairment of assets (if any).

Depreciation of leasehold improvement and equipment is calculated by reference to their costs on the straight-line basis over the following estimated useful lives:

		<u>Useful lives</u>
Leasehold improvement	-	5 years
Operating equipment	-	5 years
Computer and equipment	-	3 years
Furniture, fixtures and office equipment	-	5 and 7 years
Motor vehicles	-	5 years
Others	-	5 years

Depreciation is included in determining income.

No depreciation is provided for construction in progress and equipment under installation.

An item of leasehold improvement and equipment is derecognised upon disposal or when no future economic benefits are expected from its use or disposal. Any gain or loss arising on disposal of an asset is included in the income statement when the asset is derecognised.

#### **4.7 Intangible assets**

Intangible assets with finite lives are amortised on a systematic basis over the economic useful life and tested for impairment whenever there is an indication that the intangible asset may be impaired. The amortisation period and the amortisation method of such intangible assets are reviewed at least at each financial year end. The amortisation expense is charged to the income statement.

Intangible assets with indefinite useful lives are not amortised, but are tested for impairment annually either individually or at the cash generating unit level. The assessment of indefinite useful lives of the intangible assets is reviewed annually.

A summary of the intangible assets with finite useful lives is as follows:

- a) Computer software is carried at cost less accumulated amortisation and allowance for impairment losses (if any). It is amortised on a straight-line basis over the contract periods.

- b) Program rights are carried at cost less accumulated amortisation and allowance for impairment losses (if any).

They are recognised as the assets and liabilities under the license contracts when the license contracts period whereby, the cost of rights are known, and rights are under control of the Group. Program rights are amortised on a straight-line basis over the license contract periods.

The Program rights that transfers from inventory, the Group had amortised this right by using 60% of the cost from the first on-air, and other cost are amortised by the basis of straight line for 5 years.

- c) Motion picture and cartoon copyrights are carried at cost less accumulated amortisation and allowance for impairment losses (if any). They are amortised in proportion to their consumptions through various distribution channels, but over periods of no more than 10 years (for motion pictures) and 5 years (for cartoons) from the release date.

Game licenses and other rights are carried at cost less accumulated amortisation and impairment losses (if any). Game licenses and other rights are amortised on a straight-line basis over the license contract periods.

Intangible assets with indefinite useful lives are the copyrights and musical compositions which are carried at cost less accumulated amortisation and impairment losses (if any). They have the indefinite useful life, therefore they are not amortised but are tested for impairment annually either individually or at the cash generating unit level. The assessment of indefinite useful life is reviewed annually.

#### 4.8 Goodwill

Goodwill is initially recorded at cost, which equals to the excess of cost of business combination over the fair value of the net assets acquired. If the fair value of the net assets acquired exceeds the cost of business combination, the excess is immediately recognised as gain in the income statement.

Goodwill is carried at cost less any impairment losses. Goodwill is tested for impairment annually and when circumstances indicate that the carrying value may be impaired.

For the purpose of impairment testing, goodwill acquired in a business combination is allocated to each of the company's cash generating units (or group of cash-generating units) that are expected to benefit from the synergies of the combination. The Group estimates the recoverable amount of each cash-generating unit (or group of cash-generating units) to which the goodwill relates. Where the recoverable amount of the cash-generating unit is less than the carrying amount, an impairment loss is

recognised in the income statement. Impairment losses relating to goodwill cannot be reversed in future periods.

#### **4.9 Related party transactions**

Related parties comprise enterprises and individuals or enterprises that control, or are controlled by, the Group, whether directly or indirectly, or which are under common control with the Group.

They also include associated companies, and individuals or enterprises which directly or indirectly own a voting interest in the Group that gives them significant influence over the Group, key management personnel, directors, and officers with authority in the planning and direction of the Group's operations.

#### **4.10 Long-term leases**

Leases of vehicles and equipment which transfer substantially all the risks and rewards of ownership are classified as finance leases. Finance leases are capitalised at the lower of the fair value of the leased assets or the present value of the minimum lease payments. The outstanding rental obligations, net of finance charges, are included in long-term payables, while the interest element is charged to the income statement over the lease period. The assets acquired under finance leases is depreciated over the shorter of the useful life of the asset and the lease period.

Leases of building and equipment which do not transfer substantially all the risks and rewards of ownership are classified as operating leases. Operating lease payments are recognised as an expense in the income statement on a straight-line basis over the lease term.

#### **4.11 Foreign currencies**

The consolidated and separate financial statements are presented in Baht, which is also the Group's functional currency. Items of each entity included in the consolidated financial statements of each entity are measured using the functional currency of that entity.

Transactions in foreign currencies are translated into Baht at the exchange rate ruling at the date of the transaction. Monetary assets and liabilities denominated in foreign currencies are translated into Baht at the exchange rate ruling at the end of reporting period.

Gains and losses on exchange are included in determining income.

**4.12 Impairment of assets**

At the end of each reporting period, the Group performs impairment reviews in respect of the property, plant and equipment and other intangible assets whenever events or changes in circumstances indicate that an asset may be impaired. The Group also carries out annual impairment reviews in respect of goodwill and intangible assets with indefinite useful lives. An impairment loss is recognised when the recoverable amount of an asset, which is the higher of the asset's fair value less costs to sell and its value in use, is less than the carrying amount.

An impairment loss is recognised in the income statement.

In the assessment of asset impairment if there is any indication that previously recognised impairment losses may no longer exist or may have decreased, the Group estimates the asset's recoverable amount. A previously recognised impairment loss is reversed only if there has been a change in the assumptions used to determine the asset's recoverable amount since the last impairment loss was recognised. The increased carrying amount of the asset attributable to a reversal of an impairment loss shall not exceed the carrying amount that would have been determined had no impairment loss been recognised for the asset in prior years. Such reversal is recognised in the income statement.

**4.13 Provision for goods returns**

Provision for goods returns is estimated with reference to actual goods returns occurring during the year and calculated at the rate of sales made during the year.

**4.14 Employee benefits*****Short-term employee benefits***

Salaries, wages, bonuses and contributions to the social security fund are recognised as expenses when incurred.

***Post-employment benefits******Defined contribution plans***

The Group and its employees have jointly established a provident fund. The fund is monthly contributed by employees and by the Group. The fund's assets are held in a separate trust fund and the Group's contributions are recognised as expenses when incurred.

*Defined benefit plans*

The Group has obligations in respect of the severance payments it must make to employees upon retirement under labor law. The Group treats these severance payment obligations as a defined benefit plan.

The obligation under the defined benefit plan is determined by a professionally qualified independent actuary based on actuarial techniques, using the projected unit credit method.

Actuarial gains and losses arising from post-employment benefits are recognised immediately in other comprehensive income.

Past service costs are recognized in profit or loss on the earlier of the date of the plan amendment or curtailment and the date that the Company recognizes restructuring-related costs.

**4.15 Provisions**

Provisions are recognised when the Group has a present obligation as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation, and a reliable estimate can be made of the amount of the obligation.

**4.16 Income Tax**

Income tax expense represents the sum of corporate income tax currently payable and deferred tax.

**Current tax**

Current income tax is provided in the accounts at the amount expected to be paid to the taxation authorities, based on taxable profits determined in accordance with tax legislation.

**Deferred tax**

Deferred income tax is provided on temporary differences between the tax bases of assets and liabilities and their carrying amounts at the end of each reporting period, using the tax rates enacted at the end of the reporting period.

The Group recognises deferred tax liabilities for all taxable temporary differences while it recognises deferred tax assets for all deductible temporary differences and tax losses carried forward to the extent that it is probable that future taxable profit will be available against which such deductible temporary differences and tax losses carried forward can be utilised.

At each reporting date, the Group reviews and reduces the carrying amount of deferred tax assets to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be utilised.

The Group records deferred tax directly to shareholders' equity if the tax relates to items that are recorded directly to shareholders' equity.

**4.17 Fair value measurement**

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between buyer and seller (market participants) at the measurement date. The Group applies a quoted market price in an active market to measure their assets and liabilities that are required to be measured at fair value by relevant financial reporting standards. Except in case of no active market of an identical asset or liability or when a quoted market price is not available, the Group measures fair value using valuation technique that are appropriate in the circumstances and maximises the use of relevant observable inputs related to assets and liabilities that are required to be measured at fair value.

All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorised within the fair value hierarchy into three levels based on categorise of input to be used in fair value measurement as follows:

Level 1 - Use of quoted market prices in an observable active market for such assets or liabilities

Level 2 - Use of other observable inputs for such assets or liabilities, whether directly or indirectly

Level 3 - Use of unobservable inputs such as estimates of future cash flows

At the end of each reporting period, the Group determines whether transfers have occurred between levels within the fair value hierarchy for assets and liabilities held at the end of the reporting period that are measured at fair value on a recurring basis.

**5. Significant accounting judgements and estimates**

The preparation of financial statements in conformity with financial reporting standards at times requires management to make subjective judgements and estimates regarding matters that are inherently uncertain. These judgements and estimates affect reported amounts and disclosures, and actual results could differ from these estimates. Significant judgements and estimates are as follows:

**Allowance for doubtful accounts**

In determining an allowance for doubtful accounts, the management needs to make judgement and estimates based upon, among other things, past collection history, aging profile of outstanding debts and the prevailing economic condition.

#### **Impairment of investments**

The Group treats investments in subsidiaries, joint ventures, associates and other long-term investments as impaired when there has been a significant or prolonged decline in the fair value below their cost or where other objective evidence of impairment exists. The determination of what is “significant” or “prolonged” requires judgement of the management regarding to its projections of future operating performance, future business plans, and determination of an appropriate discount rate and key assumptions.

#### **Leasehold improvement and equipment/Depreciation**

In determining depreciation of leasehold improvement and equipment, the management is required to make estimates of the useful lives and residual values of the Group’s plant and equipment and to review estimate useful lives and residual values when there are any changes.

In addition, the management is required to review leasehold improvement and equipment for impairment on a periodical basis and record impairment losses when it is determined that their recoverable amount is lower than the carrying amount. This requires judgements regarding forecast of future revenues and expenses relating to the assets subject to the review.

#### **Intangible assets/Amortisation**

In determining the amortisation of intangible assets, the management is required to make estimates of economic useful lives and the amortisation method of the intangible assets, and to review the amortisation period when there are any changes.

In addition, the management is required to review intangible assets for impairment and record impairment losses when it is determined that their recoverable amount is lower than the carrying amount. This requires judgements regarding forecast of future revenues and expenses relating to the assets subject to the review.

#### **Deferred tax assets**

Deferred tax assets are recognised for deductible temporary differences and unused tax losses to the extent that it is probable that taxable profit will be available against which the temporary differences and losses can be utilised. Significant management judgement is required to determine the amount of deferred tax assets that can be recognised, based upon the likely timing and level of estimate future taxable profits.

**Post-employment benefits under defined benefit plans**

The obligation under the defined benefit plan is determined based on actuarial techniques. Such determination is made based on various assumptions, including discount rate, future salary increase rate, mortality rate and staff turnover rate.

As at 31 December 2019, the Group had certain computer software items which were fully amortised but are still in use. The gross carrying amount before deducting accumulated amortisation of those assets amounted to approximately Baht 99 million (2018: Baht 83 million) (the Company only: Baht 64 million, 2018: Baht 49 million).

The copyrights to musical compositions have the indefinite useful lives because they are expected to contribute to the Group's net cash inflows indefinitely. Therefore, the copyrights to musical compositions would not be amortised until their useful lives are determined to be finite.

The value of the copyrights in such musical compositions depends on the popularity of the artist and possibility of further distribution or re-release of such compositions. However, the management of the Group believes that the compositions will generate future benefits in excess of their net book values through their re-release in various forms, and therefore no allowance for impairment losses of deferred copyrights is required.

On 5 April 2019, The Labor Protection Act (No. 7) B.E. 2562 was announced in the Royal Gazette. This change is considered a post-employment benefits plan amendment and the Group has additional long-term employee benefit liabilities of Baht 32 million (The Company only: Baht 29 million) as a result.
