1. Miss Jennate Methaveevinij asked that:

- Unappropriated deficits in Retained Earnings of 4,831.94 million Baht, results in a very high P/E ratio for the Company. How and when did the accumulated loss occur?
- If this shareholders meeting approves the allocation of statutory reserve and share premium to compensate for the deficit in Retained Earnings, would that cause a decrease in the Company's book value?
- In 2018, the cost of sales and services has not decreased from previous year, is it because of high artist costs or other costs? What is the Company's plan to reduce these costs in the future?
- From all business group, what is the Company most outstanding business this coming year and how would it affect the Company?
- In the past year, One31 digital TV's hit-drama "Wife 2018" was a success and received positive feedback from audiences, so in the future will there be another success drama like "Wife 2018"?

Mrs. Karnsuda Sansuth clarified:

- The unappropriated deficits in Retained Earnings of 4,831.94 million Baht occurred 6-7 years ago from Pay TV business that the Company, at that time, viewed opportunity on such business. But it turned out since consumers were not ready to pay subscription fee and caused large number of deficit appeared in retained earnings. Nevertheless, the Company continued looking for new opportunities to improve current businesses in gaining higher revenue and operating profits by investing in other business such as Digital TV, home shopping, and movie. Our management relies on the coordination of multiple functions and continuous improvement to create sustainable growth. The Company operating results has improved, and we are confident that by allocating statutory reserve and share premium to compensate for the deficit in Retained Earnings would enable the Company to pay dividends to shareholders in the near future.
- The allocation of statutory reserve and share premium to compensate for the deficit in Retained Earnings only affect the shareholders equity. Therefore, book value of the Company will remain unchanged. The allocation of statutory reserve and share premium to compensate for the deficit in Retained Earnings would enable the Company to pay dividends to shareholders soon.
- Cost of sales and services reported on the Company's 2018 income statement amounted 4,364,707,463 Baht comes from music business, the core business of the Company, as well as home shopping business and movie business. The cost of sales and services from Digital TV business Group were not reported on the income

statement, because the Company holds only 50% and 31.27%. Therefore, the operating results of Digital TV business is booked on equity method basis and appeared on the income statement as Share of profit (loss) from investments in joint ventures. However, the cost of sales and services in 2018 was 63% of total operating income, decreased from 65% in 2017. In 2018, the gross profit margin was 37% increased from 35% in 2017.

- To the investor's concern in enhancing future possibilities to develop successful drama series that receive positive feedback from audiences like "Wife 2018", the Company will convey message to One31's management team. However, by looking at Monday-Thursday dramas, One31's currently has many popular dramas namely 1) "Rising Girl", popular among country music fans in Bangkok and other regions 2) "Sea of Greed", popular among fans of One31's drama style and 3) "Heart of Stone", very popular among teens audiences, which means that younger generations still watch TV as main screen. Moreover, in 2019, One31 will have "Aruna2019", a sequel of "Wife2018".

Mr. Phawit Chitrakorn clarified:

- In operating music business, the Company always aim for highest quality from artists and music production team. Where business model can be improved by distributing music content through digital platforms, which is in line with the industry trends where more and more platforms connects with people around the world. As mentioned earlier, aside from Library business, growth comes from creating Original Content for digital platforms which would also generate revenue. The Company also emphasize on creating more Business-to-Consumer (B2C) business, as can be seen from the dramatically increased in Showbiz.

2. Mr. Kitti Ngammaharat questioned:

- In 4Q18, the total revenue was amounted to 2,071.05 million Baht, which is quite high but why does the Company report a loss in 4Q18?
- The impairment shown on the Company's financial statement in 4Q18 of 165 million Baht was from which company and will there be more in the future?
- GMM Channel Holding Group reported a loss of 18 million Baht in 3Q18, and in 4Q18 the reported loss increased to 80 million Baht. What was the causes for higher losses in 2018? Provisions of sales return was recorded as the cost of sales and services or expenses?

Mrs. Karnsuda Sansuth clarified:

- The Company reported loss in 4Q2018 was due to,
 - 1) Reserve for sales return from Modern Trade which was difficult to determine precisely. The Company, however, has estimated the sales return in accordance with Company's accounting principles and by monitoring each Modern Trades' sale patterns, past returned products and inventories. To such extend, the management has considered that the estimated reserve in 2018, sufficient and appropriate.
 - 2) Loss from impairment of investments in associates, amounted to 12.1 million Baht, caused by closing down of Family Know How Co., Ltd. (Money Channel), which was agreed by its shareholders.

3) Loss from impairment of investment in subsidiaries amounted to 164.9 million Baht, caused by the decision to close or wind down subsidiaries of the Company, namely, GMM Tai Hub Co., Ltd and GMM Z Co., Ltd. The impairment was to ensure that the investments are carried at their recoverable amount.

- Increased losses in GMM Channel Holding Group were mainly due to the impairment of TV program (drama) broadcasting rights, which normally amortized over contract period. However, any drama considered not generates revenue will be recorded for impairment reserve.
- The reserve for sales return will be recorded as cost of sales and service on the income statement.

Agenda 3 To approve the Statements of Financial Position and the Comprehensive Income Statements for the fiscal year ending December 31, 2018

3. Mr. Kitti Ngammaharat questioned:

- Considering the statement of cash flow for the year 2018, the Company paid 266.90 million Baht for income tax, while the Company has accumulated loss of 3,032.65 million Baht on the separated financial statement and has accumulated loss of 4,831.94 million Baht on the consolidated financial statement. Why could not the Company utilize tax benefit from such accumulated loss?

Mrs. Karnsuda Sansuth clarified:

- Deficits in Retained Earnings of 4,831.94 million Baht on the consolidated financial statement in 2018 was from investment in subsidiaries of the Company in the past. Most of them were reserve for impairment in investment which cannot exploit tax benefits. The tax paid in 2018 amounted to 266.90 million Baht was from profit of GMM Grammy Public Company Limited, which was mostly from transaction in selling of shares in GMM Channel Holding Group to new shareholders.
